Digital Imaging Company

Pricelist

Committed to Excellence

30 Karaka Street, Eden Terrace, Auckland, New Zealand. Ph 09 309 8090.

General Information

Contact Details	30 Karaka St, Eden Terrace, Auckland, 1010 PO BOX 8319, Symonds Street, 1150	contact@pcl.co.nz Phone 09 309 8090	www.pcl.co.nz Fax 09 309 4923
Hours	Monday to Friday: 9.00am – 5.30pm		
Descriptions	This pricelist has basic information listed for each service. Full details and descriptions are available on our website - www.pcl.co.nz. Alternatively please contact us for more information.		
File Specs	Files must be set up to our specifications which is typically be RGB TIFF or JPEG. However, please see our full file specifications.		
Colour Management	We use professional colour management practices. Full information is available on our website - www.pcl.co.nz. Note, Direct to Print services require our clients to have correct colour management systems in place.		
CMYK	CMYK colour space is not used by any of our output devices. We can supply files in CMYK if requested, but due to CMYK being device specific, we cannot guarantee accurate colour reproduction. Therefore we advise that we supply RGB and that RGB be maintained throughout, then have the conversion to CMYK applied by the operator of the specific CMYK device that's used.		
Surfaces	We offer Gloss or Matte paper surfaces on most services. Matte will be used if the paper surface is not specified. Other specialised papers are available on selected services.		
Cropping	Generally everything is printed full frame with no cropping unless otherwise specified. Therefore you will receive the biggest print within the paper size ordered. Please specify if you need a specific print size, but some cropping may be necessary to achieve this if the format of your original does not suit.		
Testing	Testing is available on some services as listed. However, if final print does not proceed after testing, 20% of print price is charged. Jobs requiring testing will require longer service times to those listed.		
Colour Matching	When colour is to be matched to a sample, the sample must be supplied at the time of ordering. We will make every effort to match your sample, but in some cases this may not be possible as each printing type has individual colour characteristics. Please note, colour matching is not available on some services.		
Service Times	Service times listed are intended as guides only. We will endeavour to meet your deadline, but large or complicated orders may require longer. Multi service orders and those that require tests will also require longer.		
Urgent Deadlines	We will try to avoid this, but we reserve the right to charge rush rates on jobs that require extremely urgent service.		
Students	We offer specialist student services and student discount with approved I.D. Excludes Film, Batteries, Accessories, Duratrans, Flex, Mounting, Direct to Print and outwork services.		
Quotes	For jobs that fall outside the parameters of this pricelist, we are happy to provide you with a special quote. Please contact us for more information.		
GST	All prices listed in this pricelist EXCLUDE GST.		
Alterations	We reserve the right to make any additions or alterations to this pricelist without prior notice.		
Conditional Acceptance	Whilst every possible care is taken to look after your materials, orders are accepted on the condition that we will only be liable for the cost of the unexposed materials in the unlikely event of loss or damage.		
Disputes & Returns	Disputes or requests for credit will be considered valid only if brought to our attention within 7 days of the date of supply. No credit will be considered without the return of the material in question to PCL.		

File Specifications

Supply Via	CD, DVD, Camera Card, Memory Stick, Email, FTP, Online Ordering via ROES through our website www.pcl.co.nz
Format	JPEG or TIFF. TIFF's are to be 8 bit, flattened and saved as IBM PC with no LZW compression. Use Jpegs only through ROES.
Colour Mode	sRGB or Adobe RGB 1998. Use sRGB only through ROES.
Image Size	100% of final print size. Please also advise us of the print size required, so we know what sheet size to charge your job on.
PPI	300 (please see note below about large files. Lower ppi's acceptable, just ensure the image size is set to the print required)
Photoshop Files	Must have no Layers, no Paths and no Alpha Channels and saved as JPEG or TIFF as above.
File Naming	File names must be short with no special characters and include the file extension name e.g. Sunset.jpg
Colour Manage	Colour management information is on our website and must be in place for some services.
CMYK	Exact reproduction of CMYK or Pantone colours is not guaranteed as we print using RGB.
Trimming Guides	Please add a 1mm black keyline around files for trimming on Premium, Canvas, Fine Art and Black & White Print services.
Large Files	We have found no advantage in using files larger than 600mb. Therefore please do not exceed 600mb.

R Size Information

	4R	5R	6R	8R	10R	
Due to many varying original formats, we use R Sizes on machine print services. The definition of R Size is as follows: The digit (4,5,6,8,10) indicates the shortest side of the print in inches. The R (abbreviated from the word Rectangular) indicates longest side, which is unknown, due to the varying formats. E.XAMPLE. A 4R from a 35mm is a 4x6" print. This means its 4" on the shorted side so the longest side falls out to 6", which is its rectangular length. By default, we print your entire image without cropping (FULL FRAME). In other words we will print your image as big as we can within the paper or R size ordered. The chart shows prints sizes to expect from different formats.	Digi Cam 4:3 Ratio	4 x 5.3"	5 x 6.5"	6 x 7.9"	8 x 10.6"	10 x 13.2"
	Digi Cam 3:2 Ratio	4 x 6"	5 x 7.5"	6 x 9"	8 x 12"	10 x 15"
	35mm Film	4 x 6"	5 x 7.5"	6 x 9"	8 x 12"	10 x 15"
	120 - 6.45 Film	4 x 5.4"	5 x 6.8"	6 x 8.1"	8 x 10.8"	10 x 13.6"
	120 - 6x6 Film	4 x 4"	5 x 5"	6 x 6"	8 x 8"	10 x 10"
	120 - 6x7 Film	4 x 4.9"	5 x 6.1"	6 x 7.3"	8 x 9.8"	10 x 12.3"
	Max Print Size	4 x 6"	5 x 7.5"	6 x 9"	8 x 12"	10 x 15"

- Acid free archival inks and media with a projected life of over 100 years
- Canvas wraps are stretched onto 20mm or 40mm wooden frames. Unstretched Canvas is available upon request. Please allow either 25mm or 45mm bleed (extra image) on all four sides, on top of the size ordered if image is to be wrapped around the sides of the frame. We also apply a protective spray allowing enhanced Ultra Violet durability and abrasion resistance
- † Maximum size for canvas width is 37 inches due to edge wrapping
- Direct to Print is printed straight off your files with no adjustments or colour corrections. Corrected have colour correcting and adjusting
- Files must be set up according to our specifications which is basically RGB TIFF or Jpeg. Please see our file specifications
- 3 Day Service for Matte Enhanced, Water Colour and Photo Rag. 5 Day Service for Canvas
- Allow extra time for: large jobs, testing or jobs requiring scanning

Mounting and Laminating Information - prices on next page

Kapa / Gator	Durable and rigid board, wood coated with a foam centre. Add 5mm Hanger charge if required.
Artmount	A lightweight, strong contemporary and completed mounting option. Hangers included in price.
Di Bond	Aluminium composite panel, which allows a super smooth finish. Note: Add 12mm Hanger charge.
Perspex	Mounted behind perspex to give a unique 3D floating effect. Note: Add Box Hanger charge.
Card / Foam	Ideal for frames and smaller size mounting. A popular option for strutted showcards.
Lamination	Single sided protective film overlay with UV inhibiting properties to protect prints from fading.
Encapsulation	Double sided lamination which completely seals with a small lip or overhang.
Hangers 5mm	applies to images under 20x30inches. Not suitable for Perspex.
Hangers 12mm	applies to anything bigger than 20x30 inches.
	<ul style="list-style-type: none">• Hangers are optional and only come standard with Artmount, therefore add appropriate hanger charge if required• 3-10 Day Service. Longer service times may be required depending on workload and availability of stock
